### **Post-Cryosurgery Wound Care Instructions**

- It is normal for the area to be red and possibly red over the next few days.
- You can apply an over-the-counter antibiotic ointment such as Bacitracin or poysporin. Please avoid using Neosporin as it can cause an allergic reaction. It is not necessary, however to cover it with a band-aid.
- There are no restrictions with showering, swimming or regular day-to-day activities.
